Failure causes - wikipedia, the free encyclopedia

Component failure . A part failure mode is the way in which a component fails "functionally" on component level. Often a part has only a few failure modes.

Failure analysis techniques for lead free solder

Soldering & Surface Mount Technology, and assembly of reliable electronic products. Failure analysis techniques have failure modes, and mechanisms

Failure modes and mechanisms in cast iron pipe

Failure modes and mechanisms in cast iron pipe. Failures in cast iron water mains are more complex and diverse than is widely understood in the industry.
